YOU CAN TRUST.

ABOUT APCER

The employees and partners at APCER work every day to deliver expertise and trustworthiness to society.

What makes APCER a leading provider of certification, audit and education and training services?

We provide customers in all sectors with value-added solutions that enable them to set themselves apart in an ever-changing and increasingly complex market.

As a result of our activities in various parts of the globe, we possess a high level of expertise and knowledge as well as resources, which allow us to deliver high-quality services for national and international customers.

Our international presence is strengthened by our membership in the IQNet: The International Certification Network.

MISSION

Build confidence among people and organizations by improving management practices and helping to create a sustainable society.

VISION

Be a global partner in promoting confidence.

PURPOSE

To improve the quality and sustainability of life

VALUES

RECOGNITION

The entities of the APCER Group have various accreditations and recognitions that attest to their capabilities with regard to the certification, audit, and training body. For more information, visit our website or contact our services.

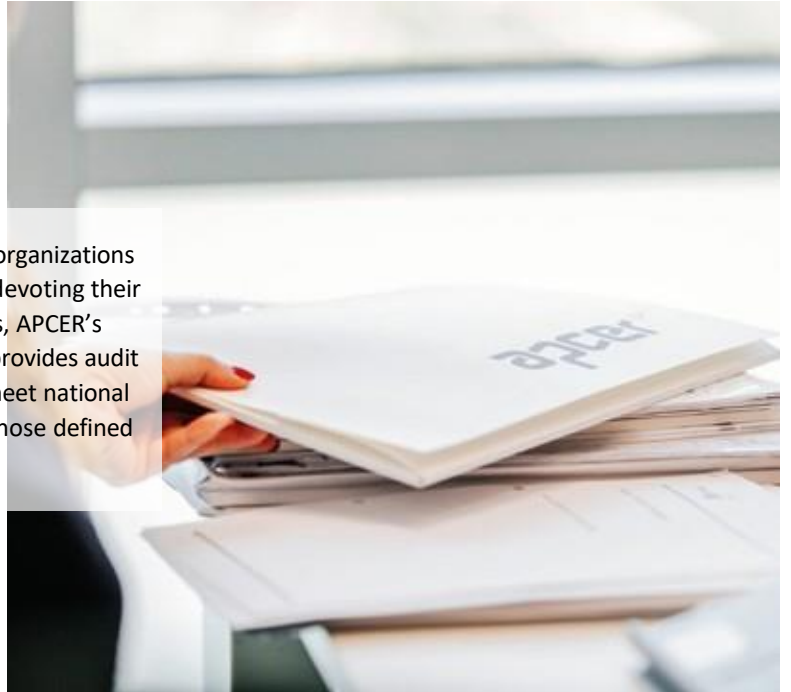

CERTIFICATION

In a competitive global market, organizations are seeking to differentiate themselves in order to win new customers and markets. Certification is a form of independent recognition that rewards organizations for good practices and ensures the compliance of their processes, products and services. APCER's certification solutions enable organizations to improve their performance in a safe, sustainable and innovative way.

AUDIT

Conscious of the constant challenges that organizations must contend with and the importance of devoting their resources to carrying out business activities, APCER's global team of highly competent auditors provides audit solutions, in-house and to suppliers, that meet national and international requirements as well as those defined by the customer themselves.

EDUCATION AND TRAINING

Solutions for transforming organizations, their professionals, and society as a whole. Seeking to play an integral part in this transformation process, APCER offers a range of training programmes that contribute to skill acquisition, knowledge building and talent development.

- ▶ Continuing Education
- ▶ Post-Graduate Qualifications
- ▶ Advanced Specializations
- ▶ In-Company Training

SPECIALIZED AREAS

▶ AGRIFOOD

Effective solutions for food supply chain organizations and area professionals.

▶ CLIMATE CHANGE

Solutions that allow you to mitigate the impact of organizational activities on the environment and educate society in general about this reality.

▶ FOREST

Solutions for responsible and sustainable forest management.

▶ IT SECURITY

Solutions that allow organizations to provide quality services and ensure the confidentiality, integrity, and availability of their main asset, information.

▶ SUPPLY CHAIN

Specific solutions for organizations that try to ensure that their suppliers act responsibly, ethically and safely.

WHY APCER?

What sets us apart? The knowledge and expertise of our employees, auditors, and trainers. Our professionals work in multidisciplinary teams with experience in various industry sectors, which results in excellent service with added value for organizations and society. We prefer to work closely with our customers so that we can adequately respond to their needs anywhere in the world.
